

AD02000 Octane Booster

Document version: 24 May 2025

Description

This Octane Booster is developed to boost the octane number by 2 till 5 points, which prevents the risk of self-ignition at unwanted moments.

Main benefits

- Increases octane number.
- Prevents exhaust valve seat recession.
- Improves fuel economy.
- Improves and enhances engine and combustion performance.
- Eliminates rough idling and engine hesitation.
- Prevents spark plug fouling.

Application

- For all petrol engines with injectors or carburetors running leaded or unleaded fuel.
- Suitable for use with vehicles with aftertreatment systems.

Application manual

The contents of one 250 ml bottle will treat 40 to 60 litres of fuel.
Pour contents of bottle in the fuel tank preferable before refueling with petrol.

Packaging units

ART. NR.	VOLUME	ITEMS PER UNIT	ITEMS PER PALLET
